Chisholm Institute Wi-Fi – Apple iPhone 3GS

The Chisholm Institute Wireless network (Wi-Fi) is a service provided for Students, Staff and Institute Guests. The service offers the ability to connect to the internet without cables in a variety of non traditional locations such as cafeterias etc.

iPhone Wi-Fi Settings

1. Open your iPhones Settings by pressing the Settings icon on your iPhones springboard. See (Fig 1)
2. You will need to enable your iPhones Wi-Fi under Settings. Using your finger select the Wi-Fi to open the Wi-Fi settings. See (Fig 2)

![Fig 2]

3. Using your finger slide the Wi-Fi from off to on. See (Fig 3)

![Fig 3]
4. Using your finger select the appropriate network. See (Fig 4)

Note: Students will need to select the CIT-STUDENT network from the list.
In order to connect to the Wi-Fi network each user will need to enter their login information. Students will need to login using their student number.

5. After selecting the appropriate network you will be prompted to enter a network username and password. See (Fig 5 & 6)

Once you have entered your username and password you should be connected to the Chisholm Institute Wi-Fi network.
iPhone network Proxy settings

Users will need to ensure they have the correct proxy settings before being able to browse the internet.

6. Under your iPhone Wi-Fi networks using your finger press the blue icon next to the CIT-STUDENT network connection. See (Fig 7)

![Fig 7](image)

7. Scroll down the page using your finger to HTTP Proxy. See (Fig 8)
